SUMMARY

Delivery operations leader with 14+ years running the operating side of client delivery at BCG, EY, Tech Mahindra and a 50+ person design studio. Own delivery operations for a 15+ project portfolio, allocation, timesheets, SOW controls, billing visibility and governance.

At BCG, ran delivery operations for 250+ consultants and lifted utilisation from 80% to 93%.

SELECTED IMPACT

- **80% to 93%** utilisation across BCG research delivery through a billability and utilisation programme
- **~₹70L/month** in enterprise retainers and fixed bid projects, delivered under one governance and control model
- **~90% less** status-update time: ~15 hours a week of cross-team updating replaced by one 1-hour review

EXPERIENCE

NetBramha Studios · Bengaluru · Apr 2024 – present

Program Manager, Delivery & Operations

- Lead delivery operations across enterprise retainers and fixed-bid program in a 50+ person design and research studio, with Project Managers running day-to-day delivery.
- Introduced commercial controls (SOW audits before kickoff, timesheet compliance, billing-leakage checks) so contract and revenue risks surface before work begins.
- Rebuilt the delivery operating model (planning cadence, weekly governance, RAG tracking, escalation paths) and cut manual reporting effort by 30%.
- Built a real-time delivery and allocation platform covering RAG, risks, delays and capacity, with Slack alerts; replaced ~15 hours a week of cross-team status updating with a single 1-hour weekly review.
- Own resource allocation across 15+ concurrent projects, balancing demand, skills and capacity with PMs and workforce coordinators.
- Manage and mentor 8+ Project Managers (3-4 active at a time), each running their own client portfolio.
